

Dear Parents,

Our schools have recently seen significant spikes in COVID cases which have led to a cascading effect on our personnel, children and families. Our reserve staff has been depleted, and we have reached a critical stage in our schools.

Teachers, administrators, student nutrition services, transportation and supply line personnel have been severely impacted due to positive COVID - 19 results and the domino effect that comes with contact tracing. The outlook for COVID infection rates continue to climb in an upward trajectory, and the virus has now seriously impacted our day to day operations.

Tonight, the Alamogordo Public Schools Board of Education made the difficult decision to transition all schools back to a virtual mode until further notice.

The risk for our children and staff is simply too great at this time.

We will continue to evolve our digital capabilities, feed our kids and prep our facilities to return our students to a safe environment when the virus is contained.

Please help control the spread of this virus so we can get our kids back to school. Refrain from large groups, wear a mask, wash your hands and practice social distancing.

Again, all schools will be transitioning back to the virtual mode until this virus can be contained. If you have any questions please call your child's school for detailed information.

Please stay safe,

Sincerely,

Jerrett Perry

Superintendent – Alamogordo Public Schools
